

New Product Information

Sport ZERO 3S for Honda CR-Z, Fit have been released

【Recommended for...】

- who drive on town mainly, but enjoy sporty driving at circuit on holiday.
- who drive on circuit with high-grip radial tyre.
- who enjoy sporty driving at long-hours.

★Newly developed! 24 steps needle valve adjusting and mono-tube shock absorber using large calibre piston.

It offers wide range of damping adjustment from Circuit to town use while corresponding precise setting for sporty driving. It generates damping force smoothly, and has suitable structure for motorsport by inside

★High strength, high quality coilover kit emphasising "Rigidity".

With using high-rigidity steel bracket, this coilover secures durability from strong input from tyres. Also welding bracket with high-strength rib is applied.

★Camber is changeable at knuckle bracket (*1some exception)

★This product is rebuildable
